

# Balle “Desktop” Computer

## Kiwon lafiya da Kariya

Sanya Kayan Kariyanka <sup>1</sup>

Kar Ka gwada kaya-kan ka soma ballewa <sup>2</sup>

Ka wanke hanuwanka bayan aiki gabanin ko wani hutawa

Ka bar wurin ka ya kasance cikin tsabta

Mataki 1

Cire “screw” ka kuma fitar da “Case” gidan

Mataki 2

Hade ka kuma fitar da duk wayayi

Mataki 3

Fitar a duk “drives” da “mainboard” da kuma Sashin dake bada wuta

Mataki 4

Fitar da babban bangaren “aluminium” daga “mainboard”<sup>3</sup>

Mataki 5

Kwance “screw printed wiring board” daga “hard disc drive”

Mataki 6

Bude “hard disc drive”.<sup>4</sup> Don yawancin “hard disc drives” ana bukarar “Torx screwdrivers” na musanman. Yawanci, “Torx-Size 9” ake bukata

Mataki 7

Yi anfani da “screwdriver” ka cire “magnet units” akan “magnetic force” su

Mataki 8

Fitar da “copper coil” ka duba “hard disc drive” da aka cire Zuwa “(a) aluminium, (b) printed wiring board, (c) magnets” da takalmin karfe, “(d) copper and (e) screws”<sup>5</sup>

Mataki 9

Balle “CD/DVD drive” ka nemi kayan citin “wiring boards, steel” karafa da “plastic”

Mataki 10

Balle “Power Supply Unit”

Mataki 11

Cire babbar “aluminium” da bangaren “Steel/Copper” daga “printed circuit board” na rabon wuta <sup>6</sup>

Output

Rarabe duk kayan da aka balle cikin (a) roba “plastics”, (b) karafa, “ferrous metals”, (c) “printed wiring board”, (d) “aluminium”, (e) wayoyi, “cables” (f) “mixed materials”, (g) rare earth magnets”<sup>7</sup>

Further information: [www.resourcefever.org](http://www.resourcefever.org)

1. Dogoon rigan aiki, takalmin aiki, kariya, “gloves” wato sarfai aiki, abin kare nanci. Daga kura da madabbin ido wato tabarau me kariya.

2. Sawa ciki da kuma gwadawa zai iya cajin “capacitors” abinda zai ya jawo barna na bugawan lantarki lokacin da ake kokarin cirewa.

3. Wasu masu saka sarrafa na fitar da “processor” da “RAMs” su sayar a matsayin bangare waje.

4. Matakai na 6-11 kuma zasu iya zama kafa zuwa manyan kafanoni kwararu.

5. “Case” da “platters” duk “aluminium” ne don haka, basu bukatan ballewa. “Yayin da wasu marafa “aluminium” ne, “Sauru kuwa daga karafa ne da basu lankwasu.

6. “transformers, heat-sinks” da manya “aluminium capacitors”.

7. Karin sarrafa da ake bukata wa “plastics” robobi da sauran karafa (rege grima da yawa) haɗaɗaun karafa (Karin sarrafa don roba abubuwa daban daban) wayoyi/fitawa da roba abin da ke ba kaye (“insulation”) da “magnets” (shine “demagnetisation”) da roba bangarori karafa)
